

PIAF Heater

Heating Machine for tactile output

The **PIAF** (pictures in a flash) heater was created for simple and easy production of tactile graphics and text. With the emphasis on uniformity and cost, the new **PIAF** heater produces superbly defined touch-sensitive relief diagrams, time after time

Features:

- Built-in temperature control
- Safe processing action
- Consistent quality, sheet after sheet
- Manual temperature adjustment
- paper size processing DIN A4-DIN A3

Combined with the Micro Capsule paper, anyone can afford to create stunning tactile images of Maps, Diagrams, Music, Chemical Pathways, Biology, Mathematics, Braille and Moon text, Graphic Design, etc. for the Blind and Visually Impaired.
